Fifteen governors were on the plat-form at 2 o'clock this afternoon when Gov. John K. Tener. of Pennsylvania, called the meeting to order. Governor, Cox and Mann were the chief speakers. Sulzer One Of Speakers.

Mr. Holmes, who is a well-known real estate salesman, is connected with the firm of Phillips & Sager, and until a week or two ago Miss Wall also was one of the office force, but no one had an idea that a romance was budding. Apparently the casual acquaintance which exists between business associates prevailed between Miss Wall and Mr. Holmes and no one but a few were told of their plans, and they promised not to tell. Some one gave the secret away, however, and a large celebration was being prepared as a surprise for the bridal party Tuesday. In some way the prospective bride learned of it and decided to spring a greater surprise, so the guests who had been invited were called over the phone and told of the change in the wedding plans.

The bride wore a beautiful white lace gown with a tulle veil arranged with tiny white rosebuds, and carried Bride roses. Her sister, Miss Eleanor Wall, who was the only attendant, wore rose pink crepe de chine and lace, and carried an armful of Bridesmaid roses.

An informal reception followed the ceremony, and later in the evening Mr. and Mrs. Holmes left Washington for a wedding trip to New York, Boston, and Maine. Upon their return to Washington they will be at home after August 1 at their new home at 234 Tennessee avenue.

The Commissioners today reported adversely on the bill now before Congress to amend chapter eighteen of the District code so that a corporation with a capital of a half million dollars could do a surety business. The law now requires a million dollars capital.

The Commissioners also contend that the bill has another undesirable feature, in that it proposes to incorporate companies by certificates to be issued by the Secretary of the Treasury.

## A New Book-Length Novel -

Published Complete in

The Munsey for July

This is a full book-length novel, and would sell in ordinary book form for from \$1.25 to \$1.50, and is published in accordance with our previous announcement that each copy of THE MUNSEY would in future contain one such novel.

A month is too long to wait for the instalments of a story, and as fast as the serials now running in MUNSEY'S MAGAZINE are finished the serial story will be discontinued and a full book-length novel will be the leading feature of each number. Readers of THE MUNSEY will thus get from \$15 to \$18 worth of most interesting novels of the year for the yearly subscription price of \$1.50.

"The Kangaroo" is an intense and exciting story of life on the Mississippi, back in the days when "Ginerl Jackson" was President, with all the vivid details incident to that rough transitional period when the highwayman was in evidence along the lonely cross-country trails, and the Mississippi gambler tempted the unwary into the web of the Goddess of Chance on the floating palaces of the river. It is a story of plantation and river life in which love and adventure play an equal part, and will hold the interest of the reader from start to finish.

Adrica's hand was stendy and his face very grave as he set that jeweled

In addition to "The Kangaroo," the July MUNSEY contains the regular instalments of two serials, "The Light of Western Stars," by Zane Grey, and "Joan Thursday," by Louis Joseph Vance.

Isaac F. Marcossan writes of recent tendencies in the relations between capital and labor, his article bearing the significant title, "A Truce in the Trades."

Brander Matthews, the famous literary authority, is responsible for an illuminating paper "Concerning Cook Books," in which the interest of the epicure will hardly be surpassed by that of the woman who takes pride in her culinary skill.

There are three notable short stories, all of them well out of the ordinary run. "With Accrued Interest," "When Tim Mulcahy Came Home" and "The Knight Who Fell" constitute a trio of "Shorts" that make exceptional idle-hour reading.
